

UX / UI DESIGNER

We have an exciting opportunity available in our Cape Town office.

The User Experience / User Interface designer will research, design, and to an extent develop beautiful and better user experiences on the digital landscape for our products, payment pages, and marketing touchpoints.

This is a fantastic opportunity to make your mark and redesign experiences with a highly visible environment and products.

The ideal candidate would be able to work independently, fiercely, and innovatively in a highly supportive team. If you are a 'get it done' personality and want to make an impact - this role is for you. You will be a part of the marketing team but needing to be highly collaborative with the development team and others.

Extra points for having an arsenal of technical skills. Experience or knowledge in Node JS, Vue JS, React or Angular is a bonus. The more you can develop with the design knowledge the better.
